WORK EXPERIENCE

Independent Consultant, Remote

Oct 2025 – Present

Strategic Advisor/Partner for Web, Design & Branding

- Working with various clients to provide strategic guidance and capabilities in web development, design, and branding.
- Helping clients build a foundational digital presence through curated services for web solutions and branding strategies.

Doerscircle, Singapore

January 2025 – May 2025

Senior Fullstack Engineer

- Devised new technical architecture to combine various independent disconnected systems, with primary focus on security, speed, scalability & long-term maintainability, alongside supporting the existing architecture.
- Worked with the stakeholders to understand the business requirements & collaborated with cross-functional teams to deliver new features.
- Supported and improved the security, scalability, and performance of the platform.
- Used Bitbucket & Jira in an Agile manner for tracking, review, changelogs.
- Identified security & compliance opportunities across multiple platforms and worked on creating & implementing various Security Policies.

Technology Lead

- Architect the Frontend for 5 projects from scratch, based on the requirements & goals received from the stakeholders.
- Create monthly & weekly roadmaps for feature development & enhancements, across 4 projects.
- Hiring, mentoring & leading a team of 8 engineers across the stack in technologies like NextJS, React, NodeJS, KoaJS.
- Using Gitlab Issues & Milestones in an Agile manner for tracking, review, changelogs & user training, reducing time-to-deployment by 20% and achieving 70% decrease in post-deployment bugs.
- Implementing best coding practices to achieve 20-25% improvement in code modularity, efficiency, and reusability within the team.

Azuro (Acquired by Square Yards), Gurgaon/Mumbai

January 2020 - August 2021

Senior Software Engineer

- Developed an internal Web App using React, Bootstrap for the frontend, and Node.js, Koa, TypeORM for the backend, training a team of 15+ users across multiple geographies.
- Led the development of 2 business critical features in coordination with Mobile App Developers, for smooth user experience.
- Mentored 3 juniors and guided 3 peers during the development process by pair-programming.

Azuro, Mumbai

September 2019 - December 2019
